Application Data

1. Applicant

Company: _____

Contact person: _____

Street address: _____

City / Country: _____

Phone / Fax: _____

Member of: BWP EHPA

2. Test centre

Method of testing: EHPA Heat Pump Keymark

Company: _____

Contact person: _____

Street address: _____

City / Country: _____

Phone / Fax: _____

3. Test reports

Number / Date: _____

4. Heat pump type Air-water Brine-water Water-water

Direct exchange Domestic hot water

5. Description of the units to be certified

Date / Place: _____ Application / Stamp: _____

6. Description of main components

The following list must include the declaration of main components in accordance with EHPA regulations, Item 2.2.1. The refrigeration circuit diagram must be marked with the EN 1861 symbol.

Model identification:

Manufacturer:	
Model/type/series designation:	

Refrigeration circuit diagram: (must correspond to all models of a model range)

Main components:

	Manufacturer	Type designation/ description
Refrigerant		
Mass [kg]	-	
GWP	-	
Compressor 1		
Compressor 2		
Type of power control	-	
Evaporator		
Evaporator fan (number)		
Condenser		
Internal heat exchanger		
Accumulator		
Expansion valve		
Defrosting method	-	
Four-way-valve		
Defrosting control (Description of the control concept)	-	
Software version

EU Declaration of Conformity

- A signed Declaration of Conformity in accordance with Annex 1 of the documentation.

Documentation for planners, equipment installers/fitters and operators in national language!

- Installation regulations subject to safety regulations.
- Installation instructions.**
- Installation regulations.
 - Dimensional drawing incl. minimum clearances.
 - Schematic diagram, fluid systems.
 - Schematic diagram, electrical system.
- Operating manual/s.**
- General information and safety recommendations for proper use.
 - Main components.
 - Heat pump operation (start-up, temperature adjustment, manual operation).
 - Maintenance.
 - Trouble shooting.
 - Warranty terms.

Customer service in national language

- Customer service organization.
- Documentation, commissioning and repairs (template for commissioning and service logs).
- Warranty confirmations for repairs.
- Spare parts supplies guaranteed for 10 years.

Thank you for submitting complete documentation. Please accept our assurances that your request will be dealt with speedily and that your data will be treated confidentially.
